Cookies Policy

This portal, like most Internet portals, uses cookies to improve the user experience. Below you will find information about what cookies are, what type of cookies this website uses, how you can disable cookies in your browser and how to specifically disable the installation of third-party cookies.

¿What are cookies?
Cookies are small files that some platforms, such as web pages, can install on your computer, smartphone, tablet or connected television. Its functions can be very varied: store your browsing preferences, collect statistical information, allow certain technical features, and so on. Sometimes, cookies are used to store basic information about the user's browsing habits, up to the point, depending on the case, of being able to recognize it.

¿Why are cookies important?
Cookies are useful for several reasons. From a technical point of view, cookies allow web pages to work more agile and adapted to your preferences, such as storing your language or the currency of your country. In addition, help those responsible for websites to improve the services they offer, thanks to the statistical information they collect through the cookies. Finally, cookies serve to make more efficient the advertising that we show you, thanks to which we can offer you services for free.

¿How do we use cookies?
Navigating through this portal means that the following types of cookies can be installed:

Performance improvement cookies
 This type of cookies retains your preferences for certain tools or services so you do not have to reconfigure them each time you visit our portal and, in some cases, can be provided by third parties. Some examples are: volume of audiovisual players, article sorting preferences or compatible video playback speeds. In the case of electronic commerce, they allow you to keep information about your shopping basket.

Statistical analysis cookies
Are those that, well treated by us or by third parties, allow to quantify the number of visitors and statistically analyze the use made by users of our services. Thanks to this we can study the navigation on our website, and thus improve the offer of products or services we offer.

Geolocation cookies
These cookies are used by programs that try to geographically locate the situation of the computer, smartphone, tablet or connected television, in order to fully offer anonymous content and services.

Registration cookies
When you register on our website, cookies are generated that identify you as a registered user and indicate when you have identified yourself on the portal. These cookies are used to identify your user account and associated services. These cookies are maintained as long as you do not leave the account, close the browser or turn off the device. These cookies can be used in combination with analytical data to individually identify your preferences in our portal.

Advertising cookies
Are those that, well treated by us or by third parties, allow us to effectively manage the advertising spaces of our website, adapting the content of the advertisement to the content of the service requested or to the use made of our website. Thanks to these cookies we can know your browsing habits on the internet and show you advertising related to your browsing profile.

Other third-party cookies
In some of our pages third-parties can install cookies that allow to manage and improve the services its offer. An example of this use are links to social networks that allow to share our content..

¿How can i configure my preferences?
You can allow, block or delete the cookies installed on your computer by configuring the options of your internet browser. If you block cookies, it is possible that certain services that need its use are not available to you. Below we offer links where you will find information on how you can activate your preferences in the main browsers:
